Profile

Senior Clinical Research Associate with nearly two decades of experience monitoring and managing clinical trials at leading CROs and sponsors. Therapeutic experience covers oncology, nephrology, cardiovascular, infectious disease, vaccines and medical devices, backed by strong working knowledge of ICH-GCP, SOPs and EC/MoH regulatory submissions in Türkiye and abroad.

Experienced across Phase I-IV studies, from site feasibility and start-up through routine monitoring and close-out. A background in chemical engineering supports a careful, detail-focused approach to every trial.
